Customer connections are the cornerstone of  Schetter Electric Inc. As a family-owned business founded in 1958, we've spent almost 50 years establishing relationships with clients throughout Northern California – and our tremendous volume of repeat customers and referrals speaks for itself. You could say our reputation for customer satisfaction and quality precedes us. Combine that top-notch service and quality with Schetter Electric's integrity, team approach, competitive pricing and broad range of services. You'll see why we're one of the area's premier electrical contractors.

SCHETTER ELECTRIC, INC.
CONTRACTING AND ENGINEERING

Schetter Electric provides every customer with decades of collective experience in electrical consulting, design and construction services. We cover all phases of your project including feasibility studies, design build, hard-cost estimating, facilities maintenance and 24-hour emergency service. Our clients include commercial, industrial, institutional, developers, constructors and government. No matter how complex or simple your requirements, Schetter Electric will meet your needs.

Pediatric hospital. UC Davis Medical
Center—Davis Tower. Sacramento, CA

Design build lighting renovations—
Holiday Inn. Sacramento, CA

Regardless of the size or scope of your job, Schetter Electric is with you every step of the way. A designated team, including a project manager, job foreman and shop superintendent, oversees each phase of your project – from concept to design to installation – all the while encouraging communication and serving as your construction liaison. Throughout your project, we look at ways to prevent potential problems, address existing concerns and recommend cost-effective solutions. Our team approach gives you the attention you deserve, and the result is a project completed on time, within budget and to your utmost satisfaction.

PEOPLE

◇ Schetter Electric prides itself in company development and technological advancement. This, in turn, enables us to bring expertise and innovation to your project. On your behalf, we take advantage of educational opportunities offered through professional affiliations and seminars. Our field employees train in a five-year NECA/IBEW apprenticeship program and our design engineers, project managers, foremen, estimators and superintendents are exceptionally qualified both academically and in practice. We push ourselves to provide you the benefits of current industry knowledge.

Just as important is our shared sense of community. Our roots and families are here in the Sacramento area, and as a company we're committed to supporting local children's charities, schools and other nonprofit agencies. We embrace the opportunity to give back to the people that comprise this great community.

To say we can handle virtually any job is a powerful statement – but nonetheless we say it with conviction. From multi-million dollar design build projects to smaller service jobs... from public ventures to private enterprise... Schetter Electric welcomes project diversity, fast-track accelerated timelines, unique applications and implementation of the latest electrical innovations.

— WITH POWER —

Our experience demonstrates our capabilities, and our customers attest to the high level of quality and service in which we perform the work. Meanwhile, Schetter Electric is backed by the financial stability and solid foundation of a company that has flourished for almost half a century.
