None

Job Narrative:

Schetter Electric provided the electrical installation for the Foskett Ranch Elementary School. This new 60,000 square foot school was constructed for the Western Placer Unified School District in Lincoln, CA. The scope of the project included twelve single story buildings containing an administration office, a library, restrooms, a multi-purpose building, and several classrooms. Each individual building had its own sub panel that was feed from the main switchgear. The multi-purpose building includes a basketball court, a stage and high ceilings with unique lighting and power.
