Architect:	**Vittelo and Associates** **Ralph Vittelo (916) 446-0206**
Electrical Engineer:	**Schetter Electric, Inc.**

Job Narrative:

The Stutz project, now known as the Rocklin Park Hotel, is a first class hotel designed for business travelers to the emerging hi-tech Silicon Hills of the Rocklin area.

The project features a five star dining and banquet facility named the "Suzanne Restaurant and Bakery" which occupies nearly half of the entire building. The facility incorporates a three story vaulted ceiling with an interesting and decorative lighting scheme in the main dining area and bar. This lighting is controlled with a custom built dimming panel.
